GLOBALMATCH
sharing opportunities

GlobalMatch is a platform that connects ambitious young people from the Global North and South – via Skype, e-mail or messenger. As a tandem partner you are given the opportunity to experience another culture, practice intercultural competences and get contacts in a globalized world.

Our Vision is to achieve equal opportunities for every young person all over the world.

Our Mission is to connect ambitious young people from the Global South and North to share their expertise, perspectives and opportunities. This results in a better understanding of living realities around the world and ultimately cooperation at eye level.

Our Action is to match two individuals with same interests, study backgrounds or complementing skills. Through regular Skype calls and communication via e-mail or messenger the tandem works on a topic of their interest, project or scientific question. We offer intercultural training and an introduction to postcolonial debates by giving online-lectures to our tandem partners.

“Each GlobalMatch is different, based on individual interests and wishes of both partners. Sometimes someone from Germany is able to structure the ideas of his tandem partner from the Global South. Or it is the other way around and someone from the Global South gives his partner important insights for a project or university thesis. In some cases the tandem partnership even leads to a physical meeting, for example when Sharon from Uganda helps Susan from Germany to arrange an internship in Africa. What all tandem partnerships have in common is the beginning of an international friendship and personality growth for both sides.”
